Title	Bifidobacterium and Lactobacillus composition at species level and gut microbiota diversity in infants before 6 weeks
Authors	Yang, Bo;Chen, Yingqi;Stanton, Catherine;Ross, R. Paul;Lee, Yuan-Kun;Zhao, Jianxin;Zhang, Hao;Chen, Wei
Publication date	2019-07-05
Original Citation	Yang, B., Chen, Y., Stanton, C., Ross, R. P., Lee, Y.-K., Zhao, J., Zhang, H. and Chen, W. (2019) 'Bifidobacterium and Lactobacillus Composition at Species Level and Gut Microbiota Diversity in Infants before 6 Weeks', International Journal of Molecular Sciences, 20(13). (16pp.) 3306. DOI: 10.3390/ijms20133306
Type of publication	Article (peer-reviewed)

Supplementary Materials

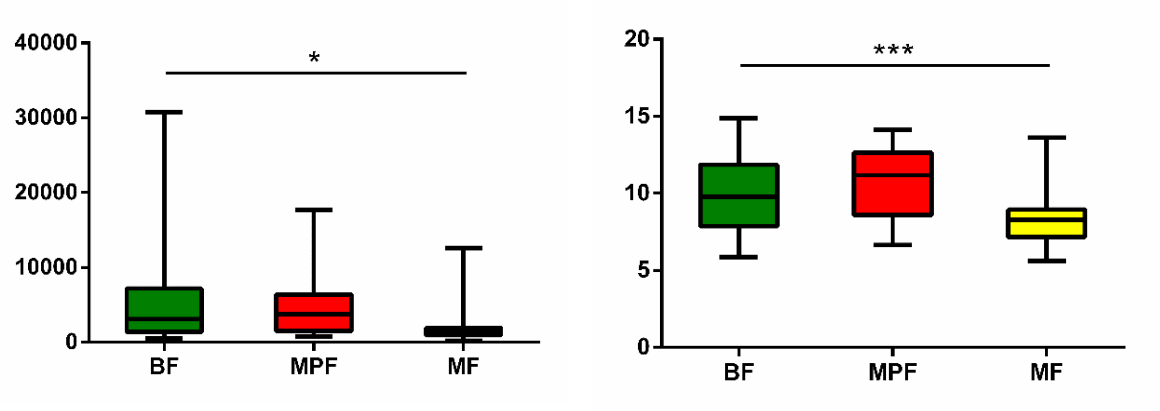

(a) **(b)**

Figure S1. PCA of gut microbiota in the infants with different delivery modes and feeding methods. (**a**): delivery modes; (**b**): feeding methods.

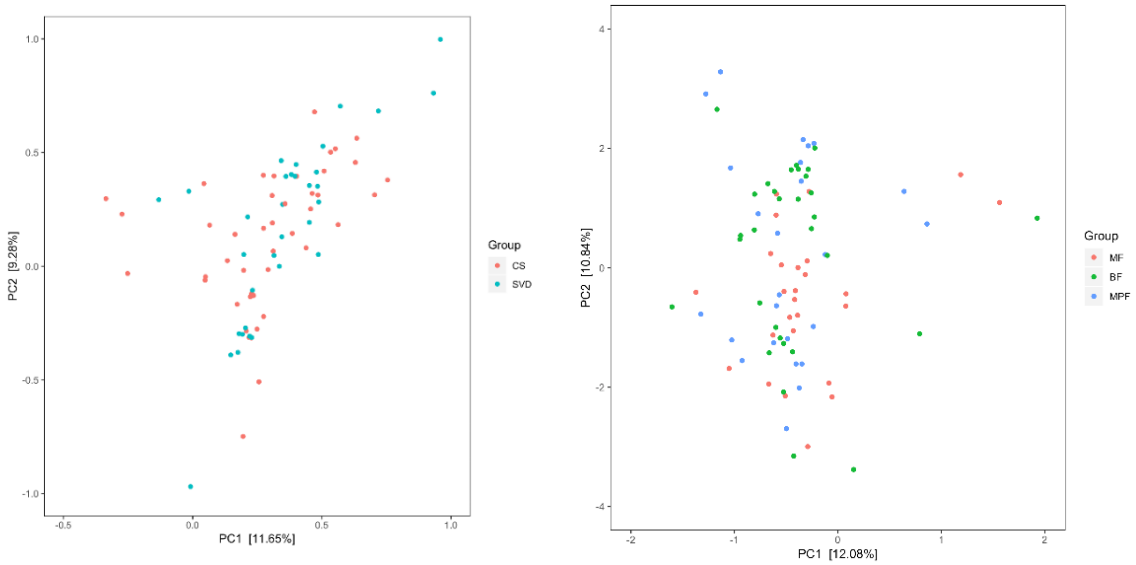

(**a**) (**b**)

Figure S2. PCA of gut *Bifidobacteria* community in the infants with different delivery modes and feeding methods. (**a**): Delivery modes; (**b**): Feeding methods.

(**a**) (**b**)

Figure S3. Alpha diversity analysis of gut *Bifidobacteria* community in the infants with different feeding methods. (**a**): Observed species ($p < 0.05$); (**b**): Shannon ($p < 0.001$). *$p < 0.05$, ***$p < 0.001$.

(**a**) (**b**)

Figure S4. PCA of gut *Lactobacillus* community in the infants with different delivery modes and feeding methods. (**a**): Delivery modes; (**b**): Feeding methods.
