7. Years in present position \_\_\_\_\_

8. Have you heard of Atraumatic Restorative Treatment (ART)?

( ) Yes ( ) No ( ) Not sure

9. How would you best describe the technique?

---

---

---

---

---

10. In your opinion, what patients are suitable to receive ART restorations?

- a. ( ) any patient
- b. ( ) only pediatric patients
- c. ( ) non-contributor patients
- d. ( ) disabled patients
- e. ( ) older patients
- f. ( ) other:

Please indicate whether you “strongly agree”, “agree”, “undecided”, “disagree”, or “strongly disagree” with the following statements. Circle your answer:

12. I find applying ART in the clinic an effective service for patients

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

13. ART restorations takes longer to do than amalgam or composite restorations

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

14. When doing restorations, I prefer to use the drill, because I find it EASIER

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

15. I consider ART an inferior treatment option as compared with other restorations

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

16. In my clinic, patients prefer ART to other type of tooth restorations

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

17. I feel a sense of accomplishment when I am able to restore a tooth

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

18. I feel better when I do not have to give a local anaesthetic

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

19. I feel a sense of accomplishment when I do not have to drill when preparing a cavity

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

20. My patients are very grateful and satisfied, if I restore their teeth using the ART technique

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

21. My patients are very grateful and satisfied when I do not have to inject them

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

22. My patients are very grateful and satisfied, when I do not have to drill their teeth

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

23. I have sufficient instruments available in my clinic in order to render ART

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

24. I have had adequate training, in order for me to feel confident when rendering ART

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

25. I would like to have more training in the theoretical aspects of ART

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

26. I prefer to use the drill because it is much QUICKER

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

27. I prefer to use the drill because it is BETTER

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

28. Most restorable tooth cavities I see in my clinic are not suitable for ART

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

29. I don't feel I can charge the same for an ART restoration as I charge for other types of restorations, such as composite.

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

30. My clinic manager fully understands the concept of ART

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

31. My clinic manager fully supports ART in our clinic

Strongly agree    Agree    Undecided    Disagree    Strongly disagree

THANK YOU FOR YOUR COOPERATION
